Wide user choice, striking contemporary design:
LINERO MosaiQ

The name sums it up – mix and match the new midway/splash-back elements like mosaic stones along the streamlined rail. The basic element for this splashback system is an aluminium rail attached to the wall. The storage elements are simply attached above or below the rail – wherever you want them. LINERO MosaiQ elements can naturally also be hung into the successful LINERO 2000 system.

LED lights cast a glow over LINERO MosaiQ elements!

With integrated LED light sticks, the multifunctional rail casts a neutral white, indirect light over the MosaiQ elements. With this splashback system in your kitchen or bathroom, you can store stuff exactly where you want it. You can have a pot of basil, a sugar shaker (or aftershave and a toothbrush) exactly where you need them and where they look good too. There's a place for your tablet, or your smartphone, or anything else you want to keep handy.

A typical Kesseböhmer product in its emphasis on form and function, manufacturing quality and fine design. This versatile system lets users personalise their choice of elements and add to them as required. One highlight is the 3-level roll holder. A patented device lets users tear off cling film smoothly. This is just one example of a wealth of practical, patented inventions.
